LETTER FROM THE PRESIDENT

This Report on the Activities of the Europamundo Foundation is intended to be published in March 2020, and given the events that have taken place as a result of the COVID19 pandemic, we believe that it is important to introduce this reflection by our President as a letter of presentation of the Report.

THE WORLD WAR OF HOPE - Will the human species be able to learn and grow after this terrible experience?

THE FIRST WORLD WAR IN WHICH WE ALL FOUGHT TOGETHER

In this new era, for the first time in the history of our species, the entire population, from all continents, religions and races, are fighting a war... all with the same objective: to win this war together...

How painful is the history of humanity... there has been so much suffering, so much hatred, so much distance... So much destruction in the countless wars over the centuries... this one has a

immensely hopeful difference: they were always against each other, they all distanced us; they all left a dramatic trail of desolation and tears that were generated by hatred, local selfishness, intolerance and walls...

For the first time in this war we are all together, together in tears, together in the fight against the disease... for the first time in history this war will not separate us, but it is an opportunity to unite and seek together a better, fairer, more supportive, more sustainable future.

The first time that ALL HUMANITY, has the same objective, shares the same fears, they feel united in their tears.

An immense opportunity to realize that we inhabit only one planet and that what unites us has always been much more than what separates us.

A war that may allow us to destroy walls and build bridges when we manage, humanity as a whole, to overcome it and understand that we are sailing on the same ship: our beautiful blue planet.

Will the human species be able to learn and grow after this terrible experience?

The world war of hope!

Since the birth of our foundation, on April 29, 2011, 148 projects and 38 emergency actions have been supported in 30 countries, with a total of 255,938 direct beneficiaries, in the projects we have financed.

As President of the Europamundo Foundation and CEO of Europamundo Vacaciones, I am proud to present this report.

**ACTIVITIES OF THE
FOUNDATION**

WHAT IS THE EUROPAMUNDO FOUNDATION? ALLIANCE BETWEEN NGO AND THE COMPANY.

EUROPAMUNDO FOUNDATION (FEM) is a private, non-profit organisation with its own legal personality and full capacity to act. The will of its founders, Europamundo Vacaciones (EMV), is the realization of the purposes of general interest that are reflected in its statutes.

https://www.cloud-europamundo.com/fundacion/files/2014_08/estatutos_fundacion_europamundo.pdf

FEM works to promote coexistence and understanding between cultures, seeking a more tolerant and diverse world, promoting the use and enrichment of the cultural heritage of humanity and especially promoting tourism awareness among the peoples of the world as a strategy for development through sustainable tourism. With Global Compact, it works for the elimination of poverty, the fight against climate change and the reduction of inequality, through the United Nations Agenda 2030, its 17 Sustainable Development Goals and the 169 associated goals, as well as the development of Good Practices within its COMparte platform. With the UNWTO, it collaborates in the ST-EP (Responsible and Sustainable Tourism for the Elimination of Poverty) initiative created at the World Summit on Sustainable Development in Johannesburg in 2002.

The contributions to this Foundation come mainly from its parent company EMV and from the collaborators of Europamundo Vacaciones through its Operators, Suppliers, Travel Agents, Partners and Staff of the Company, as well as indirectly through the totality of the passengers that have as destination the circuits of Europamundo Vacaciones. Europamundo Vacaciones allocates 2 euros to its Foundation for each passenger who makes the EMV circuits, to support the NGO projects presented in its annual call.

Europamundo Vacaciones through its Foundation launches its ninth call for proposals of the 2019 FEM Fund, in September 2019, with a budget of 276,170 euros, which is of a social nature and is aimed at supporting activities aimed at improving the living conditions of people by collaborating in the creation of a more sustainable, diverse and tolerant world.

It is in FEM's general interest to carry out social action and cooperation activities for the development of areas and sectors of the population, especially vulnerable both in Spain and in other countries, and to promote sustainable human development. Also the actions that contribute to promote and improve the impact of sustainable and responsible tourism.

NUTRITION AND FOOD SAFETY

The NPH home in Peru takes in 105 children and young people without resources and covers their most basic needs: medical care, food, and education, until they reach the age of majority and are sufficiently prepared (university or technical studies) to become independent, form their own family and be examples for their community. In all these stages, the nutrition of the children is primordial since most of them when they arrive at our home suffer from severe malnutrition problems. We must recover them nutritionally and ensure a correct diet that allows them to make the most of the educational opportunities they find at home. The project seeks the food sustainability of the children.

PROGRAMME OF ACTION, DEFENCE AND REACTION AGAINST GENDER VIOLENCE

We conceived the Programme of Action, Defence and Reaction against Gender Violence by assessing our needs and the response of the system (judicial, police, health, comprehensive and social care system...). By undertaking their liberation, women initiate a fight on multiple fronts: judicial, social, labor, physical and emotional. The economic, physical and psychological consequences of the mistreatment diminish their capacity of reaction. The scarcity of aid provokes labour exploitation, a fall into poverty, new mistreatment due to an increase in vulnerability, the steps taken being shaken or encouraged to never take them for fear of it and the lack of confidence in the system.

Our program serves as an effective support as the woman advances in the process, increasing her capacity to defend herself physically, emotionally, judicially, socially and laboriously, providing them with adequate tools to undertake a new life without violence.

Collaboration agreements

PASOS COOPERATION

Europamundo Vacaciones has renewed the collaboration agreement with the NGO Pasos Cooperación to finance a project for a network of community health volunteers in the region of Tounfite, province of Midelt in the Moroccan Atlas.

The aim is to influence the health of the population of isolated villages without health posts in the Central High Atlas in the Tounfite Circle, with an altitude of between 1800 and 2300 meters, maintaining the network of "base houses" equipped with emergency care kits, attended by health volunteers. The network of health volunteers has 23 volunteers from 16 villages in the area of Tounfite and Imichil.

This project is developed in the Central High Atlas in the villages of the valleys between Tounfite and Imilchil (communes of Agoudim, Sidi Yahya and Anemzi. province of Midelt). It is a region of high mountains, population of Amazigh language and culture, with an agro-pastoral economy (agricultural crops and grazing of goats and sheep) of survival, although there is a small rural tourism activity very little developed (also survival). There is a very high degree of illiteracy, which is more than 90 % in women. There are villages up to 2,200 m above sea level, and the climate is very cold in winter, with abundant snowfalls that often isolate the population.

The duration of the project is one year starting in October 2018 and ending in September 2019. Two expeditions are carried out, one in October before the snows and the other in May after the snows.

ECODES (ECOLOGY AND DEVELOPMENT FOUNDATION).

This business collaboration agreement in activities of general interest aims to compensate 3,901.19 tons of CO₂ during 2019 through a CeroCO₂ compensation project, corresponding to 2017 CO₂ emissions.

The project through which the compensation is going to be carried out is "CommuniTree-Community Reforestation in Limay "Nicaragua. Limay Community Carbon Project is a community reforestation initiative that brings together small farmers in Nicaragua to reforest parts of their disused land, promoted by the NGO Taking Root.

The compensation project has a cost of 10 euros/tCO₂eq. And about 15,000 trees have been planted throughout 2019.

FACTOR CO₂

In 2019, Europamundo Vacaciones and the Europamundo Foundation have signed a collaboration agreement with Factor CO₂ to offset CO₂ emissions in 2019, 3,937.41 tons of CO₂ emitted during 2018 through 3 projects:

Wind power generation project in Tongliao (China) Sustainable transpore project in Mexico
Avoided deforestation project in the department of Madre de Dios (Peru)

The first two projects are United Nations bonds called CERs and the third is purchased under the VCS standard.

UNHCR Traveling Exhibition on Shelter and ODS.

The week of December 16th the Europamundo Foundation held a travelling exhibition of UNHCR at the offices of Europa Mundo Vacaciones.

The exhibition with 11 roll-ups highlighted the 17 Sustainable Development Goals empowering vulnerable people among the more than 68 million refugees, displaced and stateless people who experience daily the consequences of uprooting.

Civil society must act and be part of the change by getting involved in the actions that are developed in favour of refugees.

Action Against Hunger inter-company race.

Every year the Europamundo Foundation participates with the EMV volunteers in the race organized by Acción contra el Hambre to raise funds for the nutritional treatments of children under 5 years old in all its projects.

In the race the Europamundo Foundation makes a donation of 10 euros per kilometer run by each of the volunteers. In 2019 the 47 EMV volunteers ran a total of 494 kms

Campaign to collect food, clothes, toys and stories at Europamundo.

During the first fortnight of December, the Europamundo Foundation organised a campaign to collect food, women's and baby clothes, toys and stories at the Europa Mundo Vacaciones offices.

160 people participated in the campaign, including staff from the Europa Mundo office in Madrid, and guide staff from our circuits.

We have collected 13 boxes of food, 2 Christmas baskets, 9 boxes of women's clothing, 6 of clothing from baby, 8 of toys and stuffed animals, and 2 of stories. In addition, about 800 euros have been collected that have served to buy more than 500 kgs of food, plus donations made by the staff of Europammonds.

The distribution of this material has been made between:

- the Godmother Foundation (Women's clothing and baby food, toys and stories). <https://madrina.org> Madrid – Tetuán (Madrid – Spain)
- Victoria Association against gender violence and Today for you (Women's clothing, baby clothing, food and toys). <https://asociacionvictoria.wordpress.com> Fuenlabrada (Madrid)

Meeting “Volunteer and Diversity: I COUNT TOO”

On 11 December, the Tomillo Foundation organised a meeting with Telefónica, Mutua Madrileña, Fonética, Asociación Síndrome de Down and the Europamundo Foundation to present a study on "attention to diversity through voluntary action. State of the art and good practices". The study also includes a catalogue of 15 good practices to promote the attention and management of diversity in volunteering.

One of these good practices was presented during the meeting by the Europamundo Foundation through

of homelessness volunteering (PsH) carried out throughout the year by 5 members of its staff with the accompaniment of friends, family and other colleagues from Europe World Vacation.

The PsH volunteer program is carried out by the Europamundo Foundation through the NGO Solidarios para el Desarrollo, which has more than 30 years of experience. The Europamundo Foundation also participates with Solidarios in the Re-crea program that puts PsH in contact with society through healthy leisure activities that promote relationships, empathy, knowledge and mutual respect.

The meeting was closed by the President of the Tomillo Foundation with a dedication through...

IX SLOW FILM COMPETITION. GUADALAJARA CITY.

The Europamundo Foundation participated as a sponsor of the Guadalajara award in the IX Slow Film competition in the city of Guadalajara.

On Sunday, November 10th, two members of the Evaluation Commission of the Europamundo Foundation presented the award for the best short film in Guadalajara to Inés Espinosa's Estereotipia.

The Guadalajara Slow Film Festival fulfills a social and cultural function in the city, bringing different films to the citizens and dealing with themes that are important to make visible.

The organizers, Contrapicado Films and El Rincón del Lento promote the idea of "slowness" or "slow life" which they understand as a set of actions such as respect for the environment and people, responsible consumption, defense of culture, decrease, alternative life and leisure, cooperation, social economy and food sovereignty, trying to make individuals improve their quality of life, control their time and be critical of the current economic and social model.

PROJECT EVALUATION WORKSHOP

The Valuation Commission of the Europamundo Foundation held a project valuation workshop through the company Agroconsulting, which specializes in consulting and technical assistance to promote socio-economic development through international development cooperation, intervention with the most disadvantaged groups and environmental conservation and awareness.

HUGS SOLIDARITY GALA "Cure the Dravet"

The Europamundo Foundation has participated by sponsoring the 5th Edition of the Hugs Solidarity Campaign, which starts with the slogan "Cure the Dravet".

Dravet syndrome is a severe form of childhood epilepsy that is very difficult to treat. The underlying genetic defect is the SCN1A gene mutation.

Dravet Gene Therapy research is carried out by scientists from the Foundation for Applied Medical Research (FIMA) in Pamplona, Tel Aviv University (TAU) in Israel, Centre National de la Recherche Scientifique, University of Montpellier in France, Dravet Syndrome Foundation in Spain and the Centre for Translational Research in Applied Medicine, Innomedix in Valencia with whom the Europamundo Foundation collaborates.

GENETICS CONFERENCE WITH INNOMEDYX

The result of the collaboration between Innomedix and Europamundo Foundation was the conference given by Innomedix's CEO on genetics and hereditary genetics last Tuesday 19th November for the staff of Europa Mundo Vacaciones, within the Tuesday Thematic program.

In November, the programme of "Thematic Tuesdays" begins in Europamundo, one per month, which during 5 sessions will deal with topics such as hereditary genetics, transsexuality, homelessness, climate change or gender violence.

The first conference will be given by the CEO, Rosa Valenzuela, from Innomedix, a rare disease research company, who will talk about genetics, hereditary genetics, under the title "Knowing and winning".

Do you know how big is the DNA contained in one of your cells? Almost 2 meters long! Imagine, how much information it contains. If you know how you're always winning. Your genes talk about you.

Presentation of the participation in the international volunteer programs of Europamundo Foundation

On July 10 in Europa Mundo Vacaciones we made the presentation of the various international volunteer programs in which staff from Europa Mundo Vacaciones have participated.

It was the presentation of the project for the recovery of animals in the Bolivian Amazon, a school in Nala (Nepal) where Amavida has been collaborating since the earthquake of 2015, and the health volunteer project that Pasos Cooperación is carrying out in the High Middle Atlas in Morocco.

Dan Zass Association Workshop with Europamundo Foundation : Performing Arts and Diversity

On June 2nd we held a joint workshop between the students of Asociación Dan Zass and the volunteer staff of Europa Mundo Vacaciones and their families.

This is a meeting that mixes dance, theatre and diversity, as we carried out the workshop with the users of Dan Zass, people with functional disabilities.

Foundation Oxiria Workshops with Europamundo Foundation

For the second consecutive year, several workshops with animal-assisted interventions have been carried out among the users of Fundación Oxiria with volunteers from Europa Mundo Vacaciones and family and friends.

A total of six workshops were held, the first two of which were theoretical training workshops for users of the Oxiria Foundation, while the remaining workshops were held in conjunction with volunteers from the Europamundo Foundation and therapy dogs in various parks in Madrid and at the cat library.

Thematic Tuesdays with ONGAWA

The last thematic Tuesday of the low season in Europamundo was on March 26th with ONGAWA, engineering for development that gave us a focus on 2030 and the Sustainable Development Goals.

A clear, developed, and to some extent critical vision in which the colleagues of the Europamundo office have participated.

Theme Tuesdays. Talk on gender violence by Victoria Association

Continuing with our thematic Tuesdays, on February 21 we had Asociación Victoria at the offices of Europa Mundo Vacaciones, to give us a workshop on sensitization and awareness against gender violence.

Through the support that Europamundo Foundation gives to Asociación Victoria, we contribute to ODS 5 Gender Equality, to end all forms of discrimination against women and girls.

Volunteers at the Europamundo Foundation

In 2019, 50 Europamundo staff participated in the different volunteer programs of the Europamundo Foundation.

In international volunteering two colleagues, Maria and Maria Angeles from the Europamundo office have participated in a project in Nala (Nepal) with Amavida, with whom we have been collaborating for several years. And also Sara, Luz and Justo participated in a project of Cooperation Steps in the High Middle Atlas in Morocco.

Storytelling Donations

Every year, through the Europamundo Spanish Market department, story books for children between the ages of 2 and 12 are given as gifts to our sons and daughters donated by the Jaguar publishing house.

Exhibition of projects 2019 of the Europamundo Foundation.

In December, an exhibition was held at the Europa Mundo Vacaciones office of the 24 projects carried out in 2019. This exhibition is a replica of the one made at the annual Europa Mundo Vacaciones Convention last November in Jordan.

Campaign to collect caps for recycling.

The Europamundo Foundation annually manages the collection of plastic bottle caps at the offices of its parent company Europa Mundo Vacaciones among all its employees and also in collaboration with some guides. These stoppers are delivered to the schools of the sons and daughters of the staff of Europa Mundo, and also through the Seur campaign "stoppers for a new life
